

Touchpoints Rehab *at Chestnut*

An East Windsor Skilled Nursing and Rehab Facility

iCare

Respite Care at Touchpoints Rehab

Caregivers can get worn down by the 24/7 needs of family members with cognitive impairment. Respite Care is ideal for family caregivers in need of a break for vacation or other travel, for loved ones needing assistance in recovering from a health circumstance or life transition.

Funding for Respite Care may be available for those that qualify. Let us assist you in connecting to resources.
